February 6, 2012

I am writing to strongly recommend Equity Painting as a painting company of choice.

Our company first hired Equity Painting for one of our projects 16 years ago and have been extremely pleased with their work ever since.

Equity Painting's combination of skill, experience and attention to detail is exactly what we had been looking for. Additionally, their professional ethics are superb. We are confident they would never misrepresent a problem or fail to go above and beyond our expectations in any way.

We now insist that Equity Painting perform all our painting needs. We truly would not trust these tasks to anyone else and we recommend them to anyone seeking a competent and trustworthy painting company.

Sincerely

Tod Myers  
Senior Estimator
